Abstract (en)

An apparatus for producing tiles or the like from cementitious mixes, comprising a mould bounded by a base grid (4) and a frame (6) superposed thereon, and towards and into which the free end of a punch (9) operated by a press can be inserted and moved to compress and shape a mass of cementitious mix (8) present in the mould, in that region in which said punch (9) is inserted into the mould there being provided members (11,14) for drawing away the liquid which seeps between the punch and the mould during the pressing of the cementitious mix. <IMAGE>
