Abstract (en)
[origin: WO0152688A2] The invention relates to an electric hair treatment appliance (1) comprising an operating desk (2) that is fixedly connected to the hair treatment appliance (1) and serves for controlling operational parameters. Said desk (2) is provided with an operating and display field (3) which is configured as a circular surface (4) and is embedded in a recess (5) in such a way that said field can be axially rotated together with the circular surface (4).
