Abstract (en)

[origin: WO0114778A1] An arrangement for coupling the inlet and outlet tubes of a hermetic compressor to a refrigeration system, each inlet or outlet tube (12) comprising a tubular extension provided with an inner annular projection (13), into which is loosely and telescopically introduced and affixed an end portion (21) of the tube (20) of the refrigeration system, each inner annular projection (13) having an internal diameter which is smaller than the external diameter of the end portion (21) of the tube (20), defining a stop onto which said end portion (21) will be seated.
