Abstract (en)

A steering column support assembly for a motor vehicle, comprises a laterally extending support structure (25), mounting points (32) for affixing opposite ends (28,29,30,31) of the support structure (25) to side portions of a motor vehicle chassis, a fixing point (45) above the laterally extending support structure (25) for affixing the support structure (25) to a front portion of a motor vehicle chassis, and a steering column support bracket (34), the steering column support bracket being supported by the laterally extending support structure (25). The support structure includes a laterally extending first support member (26), and a laterally extending second support member (27). The first support member (26) and the second support member (27) each extend laterally between the mounting points (28,29,30,31). The steering column support bracket (34) braces apart the first support member (26) and the second support member (27). <IMAGE>
