Abstract (en)  
[origin: EP1205623A2] The first folding door (26) is joined to a lever that can be (in)directly rotated by the action of a door closing fixture. The lever is joined at one end to an axle shaft rotatably mounted inside the fixture or a cabinet wall (16), or to a part protruding from this shaft. The opposite end of the lever is joined to the second folding door (28).
