Abstract (en)

[origin: WO0100786A2] A bacteriophage library useful for typing bacteria. The bacteriophage library includes a plurality of bacteriophages being categorized into: (a) a first category including bacteriophages being infective to a first type of bacteria; (b) a second category including bacteriophages being infective to a second type of bacteria; and (c) a third category including bacteriophages being infective to both the first type and the second type of bacteria.
