Abstract (en)

[origin: WO0116419A1] The invention relates to a method for producing an example (10) of the results of a treatment on a textiles product sample. A textiles product sample in the form of a web section (1) with the full production width (B) is provided with a leading piece (6) at one end (2) placed in the longitudinal direction of the web section (1) and a following piece (7) at the other end (3); and guided through a production plant in the running direction (8) for treatment.
