Abstract (en)

The drive for a swimming pool cover reel uses standard tubes (A) with a lateral blocking wedge (7). The tubes can slide axially without modifying their length. the drive can be attached to the pool without removing the pool edging. One bearing allows the main shaft slides axially inwardly or outwardly of the bearing. The tube can be of stainless steel.

Abstract (fr)

Ce mécanisme réalisé avec des tuyaux standards, permet par l'utilisation d'une cale de blocage latéral, d'être introduit dans une piscine sans en devoir démonter des margelles . <IMAGE>
