Abstract (en)  
[origin: WO0112275A1] A putting green simulator (10) comprises an inflatable body (12) defining an upper putting layer (16) and at least one ball-receiving cup (14) located snugly within a cup-receiving aperture (26) in the body (12). The ball-receiving cup (14) includes an actuator (24) that is arranged to raise and lower it so as to raise or lower the putting layer (16) and consequently change its contours to simulate the contours of a conventional putting green.
