Abstract (en)
[origin: EP1211429A1] A multi-use anchor plate for table legs, which, in particular, can also be used as a junction plate between tables specular-shaped with respect to a symmetry axis (11), for example having the shape of a right-angle triangle, on which there are holes for connection to the surface (12, 13, 14), is flat with a reduced height and has a connecting devices for a table leg (15, 16), consisting of a round ashlar (15) with a central threaded hole, which receives the end of the threaded stem of a leg which is inserted in said threaded hole or a hexagonal ashlar (16) with a non-threaded central hole, which receives and blocks a hexagonal nut or a screw having an axial hexagonal head. <IMAGE>
