Abstract (en)

[origin: WO0114413A2] A polypeptide (interacting polypeptide) capable of interacting with a Smad polypeptide wherein the interacting polypeptide comprises the amino acid sequence PP(T/N)K and is less than 150 amino acids in length or is not full-length <i>Xenopus</i> or human FAST1 or a fragment thereof, mouse FAST2, <i>Xenopus</i> Milk, <i>Xenopus</i> Mixer or <i>Xenopus</i> Bix2. The Smad polypeptide may be Smad2 or Smad3. The interacting polypeptides are useful in screening assays and in medicine.
