Abstract (en)
[origin: EP1213790A2] The terminal has a terminal frame (2) of strip material with an inner aperture acting as a conductor accommodation volume (5) with a guide (6) for a clamp bolt (7) on one side and a cable support (8) on the other side. The cable frame has a single-armed profile. The clamp bolt extends essentially in the plane of the arm (9) starting from the guide in the direction of and near the support.
