Abstract (en)

[origin: WO0117843A1] A screen assembly (1) for a fork-lift truck comprises first and second mutually spaced apart rail members (6, 8) and a protective panel member (10) provided therebetween, the panel member and the rail members together defining a doorway (12). Two interengagable doors (14, 16) slidably coupled between the rail members (6, 8) and are movable between an open state, in which the doorway (12) is open and a closed state, in which the doorway (12) is closed.
