Abstract (en)

[origin: WO0118918A1] The invention relates to a method for producing tools for releasing cable joints. According to the invention, a spring steel (3) that is cut into lengths is used. The cut spring steel (3) is pressed into a sleeve and is crimped therewith. The tool for releasing the cable joints has a shaft (1) which is provided with at least one release pin. The shaft (1) is formed from a sleeve. A spring steel (3) is pressed into said sleeve. At least one release pin is embodied at the free ends of the spring steel (3).
