Abstract (en)
[origin: EP1215012A2] Two rotarily adjustable clamping heads (13,14) hold the opposite facing end sections (9,11) of the workpiece (3). The clamping heads form parts of two turntables (16,17) whose horizontal rotary axes (18,19) are flush with each other. The clamping heads have clamping jaws (12) holding the workpiece mold neutralizing the casting clamping block (8) of the workpieces
