Abstract (en)

[origin: DE10064949C1] The construction kit, for the prefabricated components of a supporting wall, has angled connecting sections (9) especially of concrete, in addition to the conventional mold box structure. Open grooves (14,15) are at different sides of the angle legs (11,12) to take the mold structure inserts. One angle leg has a smooth outer surface for the end of the support wall.
