Abstract (en)

[origin: EP1217303A1] The device is provided in a work surface (1) and consists of a hob frame (2) with a glass ceramic plate (3) with a lateral region (5) protruding up out of its main plane with openings for control elements and/or indicators. At least one intermediate space (10) is provided between the work surface and the side region that connects a volume beneath the glass ceramic plate to the external surroundings of the hob.
