Abstract (en)
[origin: WO0100186A2] A method of treating obesity and related conditions comprising the administration of a therapeutically effective amount of a compound of formula (I) including pharmaceutically acceptable salts, solvates, racemates, enantiomers, diastereoisomers and mixtures thereof in which: R1 represents H or one of the following groups (optionally substituted with one or more of halo, cyano, hydroxy or amino): C1-6alkyl, C1-6alkoxy or C1-6alkanoyl; R2 and R3 independently represent H or one of the following groups (optionally substituted with one or more of halo, cyano, hydroxy or amino): C1-6alkyl, C1-6alkoxy, C1-6alkanoyl, C1-6alkylthio, C1-6alkylsulphinyl, C1-6alkylsulphonyl or hydroxy; R4 and R5 independently represent H, C1-6alkyl or R4 and R5 combined together with the carbon atom to which they are attached represent C3-6cycloalkylidene (each alkyl or cycloalkylidene being optionally substituted with one or more of halo, cyano, hydroxy, amino or C1-6alkyl); and R6, R7 and R8 independently represent H, halo, hydroxy, mercapto, nitro, cyano or one of the following groups (optionally substituted with one or more of halo, cyano, hydroxy or amino; and any nitrogen atom being optionally substituted with one or more C1-6alkyl): C1-6alkyl, C1-6alkanoyl, C1-6alkoxy, C2-6alkoxycarbonyl, carboxy, C1-6alkanoyloxy, C1-6alkylthio, C1-6alkylsulphinyl, C1-6alkylsulphonyl, C1-6alkylsulphonylamino, sulphamoyl, carbamoyl, C2-6alkylcarbamoyl or C1-6alkanoylamino; to a mammal in need thereof.
[origin: WO0100186A2] A method of treating obesity and related conditions, selected from eating disorders such as bulimia, anorexia, snacking and binge eating, non-insulin dependent diabetes mellitus, hyperglycaemia, hyperlipidaemia, and stress, comprising the administration of therapeutically effective amount of a compound of formula I including pharmaceutically acceptable salts, solvates, racemates, enantiomers, diastereoisomers and mixtures thereof. Most preferred compounds are 7-[1-(4-halophenoxy) ethyl] 1,2,4,-triazolo [1,5a] pyrimidines
