Abstract (en)
[origin: WO9928228A1] A yarn tensioning device for running threads, comprising a first tensioning element (28) and a second tensioning element (35) which can move in relation thereto, is actuated by magnetic force and acts upon the thread which passes in between the tensioning elements (28, 35) with a force which can be modulated. In said tensioning device, only the load pressure of the second element (35) which is prestressed in the direction of the first element (28) is modulated on the yarn (F).
