Abstract (en)

[origin: WO0114651A1] The present invention relates to a device for ground-working using a working tool (11) comprising a loading shovel (13), which loading shovel (13) is provided with a rotary cutter (14, 31) which is brought into cutting engagement with a ground surface by the loading shovel (13) and its rotary cutter (14, 31) being angled from a shovelling position to a cutting position.
