Abstract (en)
[origin: WO0118721A1] A system and method for facilitating electronic commerce by securely providing certificate-related and other services including certificate validation and warranty is disclosed. Services are provided in a four-corner trust model. The four-corner model comprises a buyer (106) or subscribing customer, and a seller (108) or relying customer, who engage in an on-line transaction. The buyer is a customer of a first financial institution (102) or issuing participant, which is a certificate authority issues a hardware key and associated private key and a signed digital certificate. The seller is a customer of a second financial institution, (104) or relying participant, which is also a certificate authority that issues a hardware key and associated private key and signed digital certificate.
