Abstract (en)

[origin: EP1221510A2] Outlet and overflow fitting comprises a water feed part (1) rotating from a position above a filling region (11) of a bath (8) into a retracted position, and a closing mechanism consisting of a tilting lever (2) arranged on the water feed part for opening and closing a sealing element on the outlet of the bath. An Independent claim is also included for a bath having an outlet and overflow fitting mounted on its edge region. Preferred Features: The water feed part and the lever share a common axis (6) of rotation.
