Abstract (en)
[origin: EP1221676A2] An automatic parking disk, comprising a time measurement device, means for displaying the measured time, autonomous power supply means, and electronic control means comprising sensor means for detecting the state of motion of a vehicle; the display means display the current time if the sensor means indicate that the vehicle is moving, and the time when the vehicle was stopped if the sensor means indicate that the vehicle is currently motionless. <IMAGE>
