Abstract (en)

[origin: WO0129348A1] The invention relates to a strip (22) which can be attached to a window frame (16) or a door frame characterized in that said strip is provided with a strip component (24) and a flat material segment (26) secured to the strip component (24). Said segment has a water impermeable region (42) to bridge the gap (18) between the window frame (16) or the door frame and a wall (6) of a building. The window frame (16) or the door frame is built into the wall.
