Abstract (en)

[origin: EP1222964A1] A liquid spray-coating method which comprises circulating a liquid from a liquid tank (2) to the liquid tank by a pressurizer (3) through a liquid supplier (6) and a spray coating device (7); and spraying the liquid to an object to coat the liquid on the object, wherein the liquid is circulated through a liquid feeding route and a liquid circulating route when the spraying is stopped. <IMAGE>
