Abstract (en)

[origin: WO0132430A1] The present disclosure relates to a method of manufacturing a capillary member (40) for use in an ink reservoir (34) for providing ink to an inkjet printhead (24). The method includes extruding a three dimensional capillary member (70). The method further includes cutting the extrusion (70) at a discrete length that corresponds to at least one dimension of an ink reservoir (34).
