Abstract (en)
[origin: WO0134477A1] The invention concerns an aseptic packaging installation comprising a packaging enclosure (4) containing a line of packaging machines arranged on a floor (8) forming one of the walls of the packaging enclosure (4), a filtering member (17) being connected to the packaging enclosure (4) to generate therein an excess pressure, and a control chamber (3) having a common wall with the packaging enclosure (4), said common wall (2) being open-worked to enable a filtered air stream to be produced from the packaging enclosure (4) towards the control chamber (3).
