Abstract (en)
[origin: WO0130684A1] A hand-held electrically powered corkscrew having a tubular body portion (5) with a longitudinal axis and a handle (4) extending laterally therefrom, said body portion having an outer barrel (36) to receive the neck of a bottle in entered relation therein; a rotatable cork auger (10) means substantially co-extensive and co-axial with said barrel, wherein said handle is inclined from said body portion at an angle to the longitudinal axis less than 90 degrees to afford comfortable ergonomic use of the corkscrew.
