Abstract (en)
[origin: EP1473421A1] At least one end (1a) of the covering (1) is provided with a raised profile (4). Plants are prevented from growing on the roof, and environmental pollution is prevented from making the roof dirty by using a roof covering made from a metal which reacts in the presence of water. The covering is made from sheet metal by punching and bending in order to form a structured outer surface (2).
