Abstract (en)
[origin: EP1228720A1] The mounting (1) for attaching a cupboard to a wall (28) comprises a metal plate and a curved adjuster (6) which cooperates with a height adjusting bolt (5). The adjuster has lugs (8, 9) along its inner periphery which are alternately bent in opposite directions so that they fit on opposite sides of a curved guide slot in the plate. Its outer periphery has a mounting groove (11). The adjuster is attached to a horizontal support (3) with two arms (12) which fits over a wall hook (29).
