Abstract (en)
[origin: EP1229188A1] Container (1) has side walls (2-5) and a tent lock (12) forming a passageway from the container via each side wall section (8, 9). The side wall sections can fold down about a pivoting axis (11) arranged on the lower edge. The lock is arranged on the inner side of at least one of the side wall sections. The lock entrance on the container side is connected to the side wall. An inflatable tent (17) is connected to the exit to the container. Preferred Features: The container has a compressor for inflating the tent.
