Abstract (en)
[origin: WO0136878A1] Draw-off conduit for transporting water from a hot-water heater to a draw-off point, which is connected in the vicinity of the draw-off point to a thermally insulated storage vessel and comprises control means for storing water from this draw-off conduit in that storage vessel and filling this draw-off conduit with cold water immediately following drawing of water from the draw-off point, and extracting water from that storage vessel at the start of a repeated drawing of water from that draw-off point.
