Abstract (en)
[origin: EP1231076A1] Laminate structure, in particular for use in security documents, such as passports, credit cards, identity cards and the like, comprising a substrate which comprises one or more layers, a top layer which is formed from transparent material, and a security element (3) which is arranged between the substrate and the top layer. This security element (3) comprises a number of layers, including a thermoplastic adhesive layer (5) and a hologram layer (6). <IMAGE>
