Abstract (en)
[origin: WO0137684A2] The invention relates to aromatized items for smoking. Said items contains special glycosides in the wrapping, which consists especially of paper or tobacco. Said glycosides can be applied in a more varied and improved way and when the item is smoked, release an aroma component which aromatizes the secondary stream of smoke.
[origin: WO0137684A2] The invention relates to aromatized items for smoking. Said items contain a glycoside of a di- or polysaccharide and an aroma component in the wrapping, which consists especially of paper or tobacco. Said glycosides can be applied in a more varied and improved way and when the item is smoked, release an aroma component which aromatizes the secondary stream of smoke.
