Abstract (en)  
[origin: WO0145800A2] The invention relates to a device (1) for playing golf. The device comprises a storage space for at least one golf club (2) and means for identifying the user, said device being arranged in such a way that said storage space is accessible to the user only when the user has been identified by said identification means. The device also comprises a support (3) for stowing the club(s) and a detector for detecting the returning of a club to the support means after use.
