Abstract (en)

[origin: WO0139101A1] The invention concerns a decoder (1) provided with a mechanical connector (1) for receiving a smart card (2, 19). Said connector is equipped with means for deactivating the chip (9) of said card if there is an attempt at removing the card (2). In another embodiment, the smart card is blocked in the connector with an adhesive, preferably a heat-activated adhesive tablet activated by the insertion of the card.
