Abstract (en)

A tool for removing a cylindrical hydrostatic bush (1) from a cylindrical bush housing (2) and for subsequent mounting of a new bush in the housing has a push rod (4) movable towards the bush housing (2) in the axial direction of the latter by means of an actuator (3) and a counter-means (8) at the opposite side of the bush housing for supporting the latter against the force on the bush (1) from the push rod, which may either be provided with a punch mandrel (9) for pushing out the interior parts of the bush or with a press plate (12) for pressing a new bush into the bush housing. <IMAGE>
