Abstract (en)
[origin: WO0140069A1] The invention concerns fluid product dispensing device (10) comprising a product reservoir, a dispensing member such as a pump, a dispensing head (15) provided with a dispensing orifice (16) and a fixing part (12, 13), and a safety cap (20) including fixing means (30) for fixing said cap (20) on said dispensing device (10), said fixing means (30) being detachable for removing said cap (20) before said dispensing device (10) is used, said fixing means (30) being removed by combining an axial pressure on said cap (20) along an axis (X) of said device and by rotating said cap (20) about said axis (X). The invention is characterised in that said cap (20) comprises fixing tabs (31) with a U-shaped end (32).
