Abstract (en)

[origin: WO0130904A1] A polyethylene terephthalate resin molding characterized by the fact it is a molding molded from a polyethylene terephthalate resin composition containing a polyethylene terephthalate resin and fibrous filler, and the intrinsic viscosity of the molding measured at 25 DEG C as a 1 % solution in a mixed solution of phenol and dichlorobenzene with the weight ratio of 1/1 exceeds 0.53.
