Abstract (en)  
The present invention concerns a shower comprising at least a shower head (2) for the ejection of a jet of water and a hydraulic circuit (4) for feeding said jet of water, said shower head (2) being realised in a transparent material and presenting, disposed from the opposite side of the water outlet, a luminous source (3) able to light the zone in correspondence with the jet of water coming out of the head shower (2). The luminous shower head can be installed in a shower for external spaces, said shower having the shape of a plant or a flower, for instance a sunflower. <IMAGE>
