Abstract (en)

[origin: EP1240900A1] The present invention provides a pharmaceutical composition for treatment and prevention of bleeding disorders caused by platelet disorders, not caused by defect in blood coagulation factors or von Willebrand Factor but caused by reduction of circulating platelet count or platelet dysfunction, said composition comprising a hemostatic effective amount of Factor VIII and/or von Willebrand Factor. Also provided is a method for treating said bleeding, comprising administering a hemostatic effective amount of Factor VIII and/or von Willebrand Factor to patients suffering from bleeding disorders caused by platelet disorders.
