Abstract (en)
[origin: EP1241653A2] The sticker backing material (10) is fixed non-permanently via a fixing adhesive layer (16) to a first sticker (14). On the backing material is information and a second sticker (22) which has perforations for removal from the first sticker. Weak points divide the stickers from one another and allow removal. Gripping strips (26,28) allow for easy removal of the stickers from the backing material. On printing of information on the sticker a film is deactivated allowing for their removal.
