Abstract (en)  
[origin: WO0145537A1] There is described a merchandise display matrix (1) which comprises a support assembly (2) adapted to be fitted with one or more spacer bars (4), the distal end (6) of the spacer bar (4) being capable of supporting a hoarding (8) provided with at least one display aperture (9, 10) wherein one or more merchandise display trays (13) may be arranged to be visible through the display aperture. There is also described a method of displaying merchandise and also a kit comprising a support assembly (2), one or more spacer bars (4), a hoarding (8) provided with a display aperture (9, 10) and one or more merchandise display trays (13).
