Abstract (en)  
[origin: WO0139987A2] An improved mail envelope comprising at least a part of a surface thereof delimited to define a separable means designed for operating as an "acknowledgment of receipt" and/or a receipt portion, having any desired shapes and size, for bearing thereon all or a portion of the information necessary to identify the sender, addressee, and spaces to be compiled by a signature, date and other optional indications, by an envelope receiving party, and further comprising, at said "acknowledgment of receipt" or receipt portion and inside a body of said envelope, a transfer means for transferring onto a document held in said envelope all or a portion of the information present on said "acknowledgment of receipt" or receipt portion, for example an opaque copying sheet designed for fully concealing the corresponding zone of the surface of the document held inside said envelope.  
[origin: WO0139987A2] An improved mail envelope (1) comprising at least a part of a surface thereof delimited to define a separable means (3) designed for operating as an "acknowledgment of receipt" and/or a receipt portion, having any desired shapes and size, for bearing thereon all or a portion of the information necessary to identify the sender, addressee, and spaces to be compiled by a signature, date and other optional indications, by an envelope receiving party, and further comprising, at said "acknowledgment of receipt" or receipt portion (3) and inside a body of said envelope (1), a transfer means (4) for transferring onto a document held in said envelope (1) all or a portion of the information present on said "acknowledgment of receipt" or receipt portion (3), for example an opaque copying sheet (4) designed for fully concealing the corresponding zone of the surface of the document held inside said envelope.
