Abstract (en)
[origin: DE10114569C1] The food preparation system (5) has a central cooking zone accessible from above, at least partially enclosed by a second zone, used for storage, preparation and/or cleaning of the food, both the latter zones enclosed by a third food serving zone, with a fourth zone, accessed from the front, positioned below at least the central cooking zone, with refrigeration compressors and/or generators and/or energy installations for food storage. An extraction hood can be positioned above the central cooking zone and a touch-screen (44), e.g. with internet access, is used for the control functions.
