Abstract (en)
[origin: EP1245747A2] There is provided a recess installation module (1) for sanitary fixtures, in particular suspended sanitary fixtures, wherein functional components (3; 4), including in particular a drain pipe support (3) and two supporting units (4) for fastening ties, are fixed removably and in respective predetermined work positions to a supporting frame (2) by inserting respective connecting teeth (30a; 30b), carried integrally by the functional components (3; 4), inside respective seats (31a; 31b) formed in the frame (2); each functional component (3; 4) also has at least one lock member (32a; 32b) which fits inside a corresponding recess (33a; 33b), formed in the frame (2), to lock the functional component (3; 4) in the work position once the teeth (30a; 30b) are inserted inside the respective seats (31a; 31b). <IMAGE>
