Abstract (en)
[origin: WO0154539A1] A plane and/or coating (1) for furnishings is disclosed, that comprises: an external coating element (3); a stopper element (5) that cooperates with the external coating element (5) to complete the external part of the plane and/or coating (1); and at least one layer (7) of expanded foam placed inside the plane and/or coating (1), that operates as bonding agent between the external coating element (3) and the stopper element (5) to which it is respectively connected. A process for manufacturing such plane and/or coating (1) is also disclosed.
