Abstract (en)

[origin: WO0151556A1] The invention relates to a dry mixture, which comprises starch, biologically degradable fiber material, protein and, optionally, additives, for producing biologically degradable shaped bodies, and to a method for producing such a dry mixture. The invention additionally relates to a paste that can be baked, whereby this paste comprises starch, biologically degradable fiber material, protein, water and, optionally, additives. Finally, the invention relates to shaped bodies that are produced by using said dry mixture or said paste that is capable of being baked.
