Abstract (en)
A multifunction shower booth (7), of the type comprising panels (1, 2) for delimiting the user compartment, whereof at least a first angular panel (1) and at least a second lateral panel (2), at least the first angular panel (1) being destined to house, in the rear, hydraulic organs and, in the front part, the instruments (5) for usage and any accessories (6). The main characteristic resides in the fact that the panels (1, 2) are able to be mutually superposed, in correspondence with two vertical sides (11, 21) thereof facing each other and in the transverse sense, in such a way as to be adapted, at least along the transverse direction of a side (71 or 72) of the booth (7), to the different measures of width that the side (71 or 72) of the booth (7) may have. <IMAGE>
