Abstract (en)  
[origin: EP1253230A1] The circular knitter has a machine frame (1) supported on the ground by a number of feet (2,3). The frame has the needle carrier (7), lock mantle and a fabric take-off and/or winder (14). At least one frame support foot is adjustable to alter the machine width. An intermediate piece (28) and two ground struts (27,32) of different lengths are at the frame. The adjustable machine foot is connected directly or indirectly at its upper end with the intermediate piece at the upper part of the frame. Its lower end is secured to one of the ground struts.
